## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1,2,5,6,7,10,14,15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, the following terms are not clear:

“substantially small uniform sized” - such term is relative it is not clear what is small:

“the nanoscale range (10-9 m) – there is no range listed:

“polarizable” is not a definite statement, polarizable by what?

“compatible with petroleum-based products” – it is not clear which products.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakanishi'666, Geiser'448, Ohshima'266.

See Ohshima'266, abstract, column 2, lines 1-25, column 4, lines 47-55, examples. Geiser'448, Abstract, figures, Summary of the Invention, column 2, bottom – column 3, lines 1-35.

The amendments and remarks filed by Applicants in their response have been fully considered. The claims, however, remain unpatentable in view of the above rejections. In response to the Applicants arguments the examiner submits that the prior art cited substantially teaches the claimed invention as in the above rejections. The rejections are believe to be proper and are maintained.
